City of Memphis- FY17 Firewall Replacement Project

RFQ # SAIC CoM 2016 –MC R187865 RFQ Questions

RFQ Section	QUESTION	ANSWER
	On the bid you are requesting (2) Palo Alto 3020's and (2) Threat Prevention subscriptions but you are only requesting (1) subscription of WildFire and PANDB. Is that a typo or do you really only want one copy?	These specs are correct – the PA-3020's will only need Threat Prevention subscriptions, not Wildfire or PANDB.
	Also, are you wanting to run the 3020's in HA mode or will they be run separately?	The PA-3020 firewalls will be run separately.
